PRICE DROP - \$300,000

Highlights:

- Low time aircraft
- Fresh Annual and new IFR Certification November 2025
- Brand new compressor for aftermarket Keith AC System - Works great!
- Overall nice and extremely clean condition.

Description:

This 2005 Cirrus SR22 is a clean, low-time airplane that's ready to fly. It has a fresh annual and will have a new IFR certification in November 2025, so you can fly with confidence. The air conditioning has a brand-new compressor and blows cold. This aircraft is very well cared for and looks great inside and out. It's fast, strong, and has a comfy cabin with lots of room. It also has a whole-airplane parachute (repack done May 2025), which makes it even safer and more desirable for any pilot.
